

HE Space is a successful international space company. For 40 years, we have been supporting our customers with qualified experts in the field of engineering, science and administration. HE Space has joined forces with CS Group to lead the engineering and digital space market in Europe and to provide highly skilled consulting.

IVV (Hardware) Engineer

Key Tasks and Responsibilities

As part of the Airbus team, you will have the following responsibilities:

- Plan and execute hardware integration, verification, and validation activities;
- Perform thorough testing and validation to ensure hardware products meet design specifications;
- Collaborate with software engineers to ensure cohesive hardware-software performance;

Skills & Experience

You will have the following qualifications and relevant experience:

- Master's degree in Engineering;
- Extensive knowledge of hardware IVV processes;
- Experience with hardware validation techniques;
- Proficient in test methodologies and equipment for hardware validation;
- Fluency in English is mandatory; knowledge of another European language is an advantage.

This job is located in Portsmouth or Stevenage in UK.
