

**HE Space** is a successful international space company. For 40 years, we have been supporting our customers with qualified experts in the field of engineering, science and administration. HE Space has joined forces with CS Group to lead the engineering and digital space market in Europe and to provide highly skilled consulting.

## **IVV (Software) Engineer**

### **Key Tasks and Responsibilities**

As part of the Airbus team, you will have the following responsibilities:

- Lead IVV activities for software aspects of payload hardware;
- Conduct testing and validation to ensure software reliability and integration with hardware;
- Collaborate with hardware engineers to validate end-to-end product functionality;

### **Skills & Experience**

You will have the following qualifications and relevant experience:

- Master's degree in Engineering;
- Strong expertise in software validation techniques;
- Proficient in testing automation and validation tools;
- Experience in IVV activities within aerospace or related industries;
- Fluency in English is mandatory; knowledge of another European language is an advantage.

This job is located in Portsmouth or Stevenage in UK.
