

HE Space is a successful international space company. For 40 years, we have been supporting our customers with qualified experts in the field of engineering, science and administration. HE Space has joined forces with CS Group to lead the engineering and digital space market in Europe and to provide highly skilled consulting.

Configuration & Data Manager

Key Tasks and Responsibilities

As part of the Airbus team, you will have the following responsibilities:

- Be responsible for the implementation of Configuration Management (CM) activities in national / international projects with systems and subsystems (SW/HW) along the entire product life cycle;
- Creation of project-specific CM plans and ensuring the compliance with the applicable processes;
- Definition of CM interfaces (internal and external) – being the contact person for customers regarding CM aspects, requirements and change control;
- Maintaining the integrity of products and design statuses through baselining and planning as well as the implementation of release boards and change control boards (CCB);
- Creation and validation of product configurations through to-build / as-built baselines and Support of corresponding audits (FCA/PCA);
- Measuring and reporting suitable KPIs for both line management and projects;
- Supporting cost and resource planning, describing work packages and ensure the progress of Time-onCost-onQuality.

Skills & Experience

You will have the following qualifications and relevant experience:

- Bachelor's degree in computer science, aerospace or industrial engineering;
- At least 2 years of experience in configuration management;
- SAP and Windchill knowledge an advantage;
- Strong organization skills and a structured, independent and proactive way of working;
- Fluency in English and German is mandatory; knowledge of another European language is an advantage.
